

Kansas City Cancelled Trip Notes
May 15 – 18, 2020

The trip that was not to be. It wasn't the first and won't be the last.

We chose the date because Marie was to graduate Kansas University.

We started adding to the trip to have a mini family reunion, with sister Beverly driving in from Columbia, grandson Joseph from Bentonville, and daughter Alayna reasonably close by in Plattsburg.

Coronavirus had another idea. And has since early this year first disrupting my March Montreal trip, since then many more, up to my Camino in October.

Canceling trips and getting money or vouchers back has proved to be more challenging than the original booking.

It is especially sad for Marie who was away on spring break when her campus shut down and she is missing the end of her year, the goodbyes of friends and the graduation.
